A vest trial of its virtues throughout this brond country, has proven beyond a doubt, that no medicine or ombination of modleines yet known, can so surely con rol and cure the numerous varieties of pulmonary disouse. which have hitherto swept from our midst thousands and housands every year. Indeed, thore is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous aftertions of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its uso. but we would present the following:—and refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars, and Indisputable proof of these state

ments.

Office of Transportation,
Laurens R. R. S. C., Aug. 4, 1853.

J. C. Aver. Dear Sir,—My little son, four years old has just recovered from a severe attack of malignant Searlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Huving usod your Cherry Pecrorat in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I grave him a leu-spoon-full every three hours, commencing In the moruling, and hy ten o'clock at night. I found a docted change for the better, and after three days use, hn was ablo to cater drink without pain.

Is use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent. For all affections of the Toroat and Lungs, I believe it the best medicino extant. A feeling of the deepest gratitude, prompts mo in Redressing you these lines,—hut for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

Ohio River Improvements.

Sin:- The fact is known to most of your readers that a law passed the Legislature of Pennsylvania at its last session, incorporating a company to improve the navigation of the Ohio river, so as to render it a permanent and reliable channel of commerce. Incalculable loss is annually sustained by the country from its periodical failure, through lowness of water, to afford these facilities to business which it does sometimes afford, and which, it is desirable, should at all times be enjoyed. It is practicable to render it just as reliable an avenue of trade as are the great lakes, and better than they are, because not exposed to storms, nor so liable to be obstructed by the ope-IF Single copies of the Daily Commonwealth, ration of frost; and better than they are, because put up in wrappers, will be furnished to the it is the great central highway of the country, members of the General Assembly at Two CENTS and not, like them, upon the extreme northern border.

As an internal improvemet it is perhaps the only one that can claim a truly national character.

For the Commonwealth. I perceive that Dr. Waller over his own signaure denies that he was in Frankfort more than once during the session of the Legislature of 1850-1, and asserts that his visit was made after Governor Helm vetoed the Bacon College lottery

Now, that bill was vetoed on the 12th of March, 1851, and Dr. Waller writes from Frankfort to Walter Gregory on the 2d January, 1851, in reference to both the lottery and Bacon College grants aking strong ground against them, and in that he "Bacon College application is perfectly hope

Why, it was but yesterday that the House of Representatives passed a bill that repealed all laws authorising billiard tables; expressly upon the ground that they were and are so many temptations to gambling. And do you for a moment suppose that abilliard table is, so far as a present and ultimate evil are concerned, any more to be mpared to a lottery than a preacher of the Gosel is to be compared to a common gambler. My last illustration loses I confess much of its

It is true tha faith is an essential ingredient in a preacher, but that faith which works by the love of lottery schemes will never bring the millenium upon the world, nor will it increase the respect we are apt to feel for "the man of God."

The lottery scheme is first sold in the market as a commodity before it is asked for; and ther when the bargain is concluded the Legislature i invoked, against precedent, against public polic and against common deceney, to confirm the sale and grant a new lottery because a preacher has

"sold them out" to "other parties Ali! has it come to this, that the lottery is to be insisted upon because the applicant has made a "highly advantageous contingent engagement" for its sale to a lottery vendor? Are gentlemen legislators to be traded off, neck and heels, in this summary manner? The Reverend Doctor of Divinity trumpets it to the world that he has sold the scheme contingently to other parties, and now, I suppose, as a mere matter of form, tells the Legislature to stand up to his contract. Pro pudor.
But let me return to the argument, and quote from Gov. Helm's message vetting the Bacon College lottery bill, in March, 1851.

College lottery bill, in March, 1851.

"No lottery can add to the wealth of the State.
As ours are managed, when sold to brokers in a foreign State (this lottery is alrendy sold to a Mirry land broker) they abstract materially from that foreign State (this lottery is alrendy sold to a M1. ryland broker) they abstract materially from that wealth. To the extent of the profit made, they

are an obvious drain upon the pockets of our people for the benefit of foreign lottery brokers.

A lottery is but a mode of raising money by a species of unequal gaming, and oppressive and unequal taxation. Contrary to all wise systems of taxation, instead of easting most of the burthen on those best able to bear it—the rich—it falls with a heavy and blighting weight upon

ture of Kentucky, that they propose to sell tickets to the amount, in round numbers, of \$1,280,000, in which they propose to distribute prizes to the amount of \$940,000, after deducting 15 per eent, therefore. That is, for what would cost the community \$1,250,000, it is proposed to repay the sum of \$500,000, resulting in a loss to the

community, on these schemes to be drawn in a single month, the enormous sum of \$400,000.

This fact incontestibly proves another; that s, the lotteries are either so fraudulently ed that the prizes can never be drawn by old tickets, or they are placed upon a coningency so remote as to render it next to impossible; and are neither able, nor do they intend to pay should they chance to be drawn.

"A lottery is the most pernicious of all modes of gambling. In my judgment it would involve no more moral turpitude, and inflict upon the community no greater evil to license faro banks and bil-liard tables. I incline to think the latter, of the two, far the most rational and least pernicious. state of Kentucky proud in character, rich in reonrees, with morals equal to any other community, to begin a system of educating the youth of the country upon funds which were won by legal fraud and devices, and the cunning of its instruments, from the weak, unwary, unsuspecting, and most generally poorest part of our community? Shall she play vulture and feed her young upon her own feathered, but weaker tribe?"

Here speaks the statesman, with the love of his country burning upon the altar of his heart?— How much stronger is this appeal to our sense of ight, than that which sustains lotteries and enrses gambling.

It has been urged that the citizens of Shelby county are unanimously in favor of the lottery. The men who make the assertion know wothng of the wishes of the citizens of that co There have already been presented to the Leislature remonstrances, signed by hundreds of he citizens of Shelby, protesting most positively against the introduction of a lottery in that com-munity. And hundreds more of Shelby men will how, by the same means, that this measure is neither sought nor wanted by a majority of the

I have this moment risen from a conversation with one of the most intelligent and influential farmers in the county of Shelby, and he tells me he people scorn the imputation that they re for this species of gambling to restore the exansted resources of a literary institution.

And now what heeomes of the assertion that revious representations as to opposition to the A swelling tide of opposition has only beun to pour its strength against this iniquitous roject. The bone and muscle of the county oil now speak and condemn the reckless asser-

ions of those who favor the measure. A just and enlightened Legislature will know now to decide the question when the issue shall be mide.

certain and speedy cure for Ague and Fover, and Chills and Fever, in all stages of the disease. The proprietor, in offering this medicine to the public, oes so with the fullest confidence in its success, and it eds but a fair trial to convince any and all persons of value as a remedy. It requires no preparation of the ystem in order to effect a cure; for while it is calculated o remove the disease, it at the same time restores the eneral health of the systom. The combination is and is entirely safe as a popular remody. It has been sed in a great number of cases during the last three months, by men, women, and children, and in no instance has it falled to effect a permanont cure. This gives it great superiorty over the other remldies. In use, or white they only arrest the disease for a time, this medicine drives it entirely from the system. Let those suffering with the disease give it a trial and they will soon add their testimony with many others in proof of its hippy effect

T is well known that there is great economy In crushing or grinding the kernels of all grain before feeding it o stock, and that there is much nutriment in the cohehen properly broken or ground. And the only reason hat mills arranged to produce these desired results have not been more generally introduced umong planters and ers, has been their complex arrangement and high

In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary in the content of the content of the content of the mill.

Any once single the mill.

Any once using these Mills will flud a clear saving of one quarrate of their corn over the old plan of feeding. We warrant these Mills of give ontire satisfaction. Purchasers may use them for thirty days and if not satisfied, can return them and got their money.

They will grind Corn and Cohas fine us desired, at the following rute per hour, with one horse:

No.1, 4 to 5 bushels per hour. Weight 350 hs. Price \$25 00.

No.2, 6 to 8 bushels per hour. Weight 400 hs. Frice \$30 00. Adding freight from Lonisville.

The above prices includes the complete Mill rendy to hitch to without any further expanse, and can he set in operation in five minutes time. For said by

We have been for a long time satisfied that the so-called-Sanford patent is a fraud, and that it is void, heing a palpable piracy and infringement of the patent-right of John Boynton, which bears date 25th day of September, 183s, and has expired. We have been satisfied that the machine denominated Sanford's perfect Straw-Cutter is constructed not according to the specifications contained in Bondford's patent, but according to the specifications contained in Boynton's and all this has recently been decided in the U. S. Circuit Court for the Middlo district of Tennessee. Some months since, we sold to B. S. Weller, of Nashville, suveral of the so-called Sanford Straw-Cutters, which were taken by him to the State of Tennessee and there sold. Ch's M. Alexander claimed to be the assignee of Sanford's patent for the State of Tennessee from J. B. Ford & Co., and sued Weller on infringement. Weller defended and insisted that Sanford's patent is void and a piracy on Boynton's, and, as we betore said, court and jury so decided.

We are prepared, as beretofore, to furnish all orders

nd jury so decided.

We are prepared, as beretofore, to furnish all orders or the Straw-Cutters manufactured by us, and to defend my and every person in selling or using them.

Application for Insurance received by John C. Hkannon, Agent, Frankfort, Ky., who will furnish applicants with pamplilets containing rates, conditions, &c.

The Agency of this Company, at Frankfort, Ky., has been in existence one year last May, during which time one loss had occurred. This risk was that taken by the late Issae P. Blackwell, for the benefit of his wife. One premium only had heen paid (about \$74.) on \$5.600. The whole \$5.000 was paid to Mrs. Blackwell, whose acknowledgment is given below.

This presents one of the many instances in which the benefits of Life Insurance is fully Illustrated. The assured had failed in business, left nothing for his wife, except what resulted from the Insurance on his life, which he had been so thoughtful in making.
